

**Thermal, Electrical, Mechanical and Air Components
Your source for quality, dependable heat transfer products,
systems and accessories.**

INDUSTRIES SERVED:

- Automotive Performance
- Construction
- Industrial applications
- Power Generation
- Compressor (Stationary and mobile)
- Forestry
- Off-highway
- & A Variety Of Other Industrial Applications

APPLICATIONS:

- After-cooling
- Glycol cooling
- Lubrication oil cooling
- Turbocharger Intercooling
- Fuel cooling
- Hydraulic circuits
- Process gas cooling
-

REPLACEMENT COOLERS FOR:

- ATLAS COPCO
- GARDNER DENVER
- SULLIVAN-PALATEK
- CUSTOM & OEM SOLUTIONS TO MEET YOUR SPECIFIC COOLING NEEDS
- COMPAIR
- INGERSOLL-RAND
- QUINCY
- CURTIS
- MATTEI
- SULLAIR

ENGINE COOLING SYSTEMS & COMPONENTS FOR:

- CAT
- CUMMINS
- MTU / DETRIOT DEISEL
- CUSTOM & OEM SOLUTIONS TO MEET YOUR SPECIFIC COOLING NEEDS

ELECTRIC MOTORS:

- BALDOR
- TECO-WESTINGHOUSE
- WORLDWIDE ELECTRIC
- LEESON
- TOSHIBA
- MARATHON
- WEG ELECTRIC

INDUSTRIAL FANS:

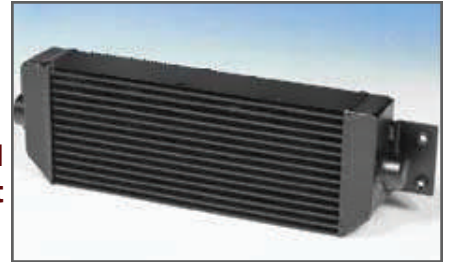

- MULTI-WING IMPELLERS
- REPLACEMENTS IMPELLERS
- DC FAN UNITS

Packaged units incorporating one or more heat exchangers, utilizing various fan & motor arrangements, optimized to meet customer specific requirements.

Standard coolers for oil cooling available from stock.

Charge-air-coolers for turbocharged diesel engines. Coolers can be mounted in front or in a side-by-side configuration.

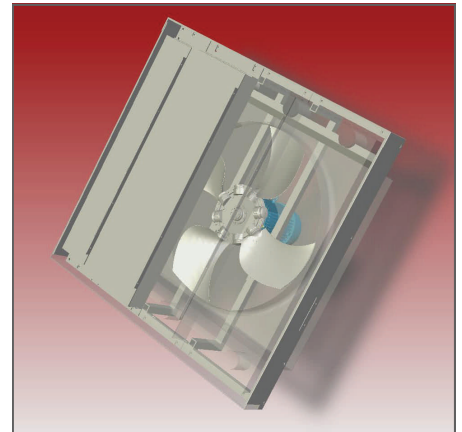

Replacement oil coolers, aftercoolers and combination coolers, to meet your cooling needs and matched to your mounting and connection locations.

TEMAC is a full line motor supplier delivering quality products at an affordable price.

Multiple fan designs to fit your unique cooling needs. Impellers selected to fit current applications or incorporated into a heat transfer system designed for optimum performance.

TEMAC takes pride in the design and manufacture of systems to meet your specific requirements. Reduce cycle time, simplify engineering, consolidate your purchasing and expediting while avoiding issues associated with multiple suppliers.
